

Reconnect with customers and meet new prospects in San Francisco

Share your latest solutions and make important contacts with the right audience as everyone assembles for an exciting year of collaboration and business growth. Start the year off right by connecting with customers, clients, and prospects at the BiOS Expo in San Francisco. Don't miss your opportunity to be a part of the world's largest marketplace for biomedical optics, biophotonics, and imaging.

BiOS is at the forefront of healthcare and life sciences

BiOS is the world's largest international biomedical optics event, encompassing clinical, translational, and fundamental R&D in the field of biomedical optics and photonics. It provides the premier technical forum for reporting and learning about the latest research and development, as well as for launching new applications and technologies.

Join over 1,500 exhibitors at one of the five exhibitions at SPIE Photonics West

SPIE.

SPIE is the international society for optics and photonics. We bring engineers, scientists, students, and business professionals together to advance light-based science and technology. Over the past five years, we have invested more than \$25 million in the international optics community through our advocacy and support, including scholarships, educational resources, travel grants, endowed gifts, and public-policy development.

Connect your company with today's leading biomedical researchers

Showcase your latest advancements, products, or services to a qualified audience at SPIE BiOS Expo, taking place the opening weekend at Photonics West.

Connect with people who need your products and services

- Medical and optical physicists
- Biomedical research clinicians
- Optical instrument developers
- Equipment designers
- Bioengineers
- Cell physiologists
- Cancer therapists
- Molecular imaging specialists

Connect with prospective customers looking for solutions in a variety of categories

- Optical components, products, and instrumentation
- Biomedical
- Lasers
- Molecular imaging
- Health diagnostics and therapeutics
- Nano/biophotonics detectors
- Biosensors
- Spectroscopic/microscopic imaging

BiOS, an important part of Photonics West

BiOS—the largest biophotonics, biomedical optics, and imaging event in the world—helps kick off SPIE Photonics West each year. Together, these four powerful events connect the global technical community to advance light-based research. Make sure your company is part of this important event.
