MOVING TECHNOLOGY TO MARKET™

SPIE. SENSORS+IMAGING

SPIE Environmental Remote Sensing | SPIE Security + Defence

Exhibition: 15-16 September 2026
Conference: 14-17 September 2026
 Edinburgh International Conference Centre
 Edinburgh, Scotland

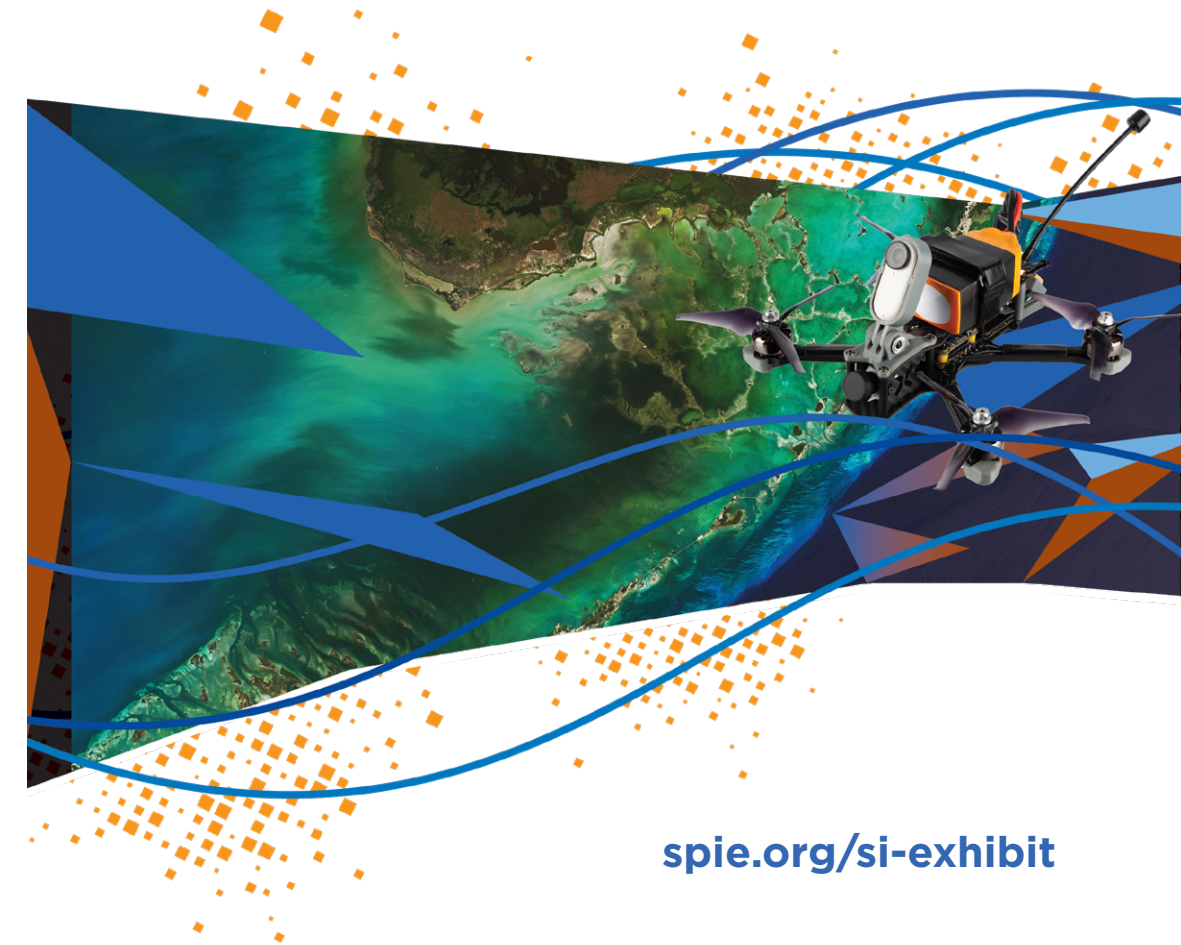

Utilising the best sensing and imaging equipment is key for the defence and remote sensing communities. At the exhibition, visitors and conference attendees will want to learn about the latest and best components, devices, instruments, software and systems and investigate new companies to add into their supply chain.

15-16 September 2026

Edinburgh International Conference Centre
Edinburgh, Scotland

SPIE Sensors + Imaging brings together two Europe-based symposia, SPIE Security + Defence and SPIE Environmental Remote Sensing. Attendees include leading experts for the security and defence community interested in various components, devices, and systems comprising the latest innovative technologies for the security and defence and remote sensing application spaces.

800 ATTENDEES

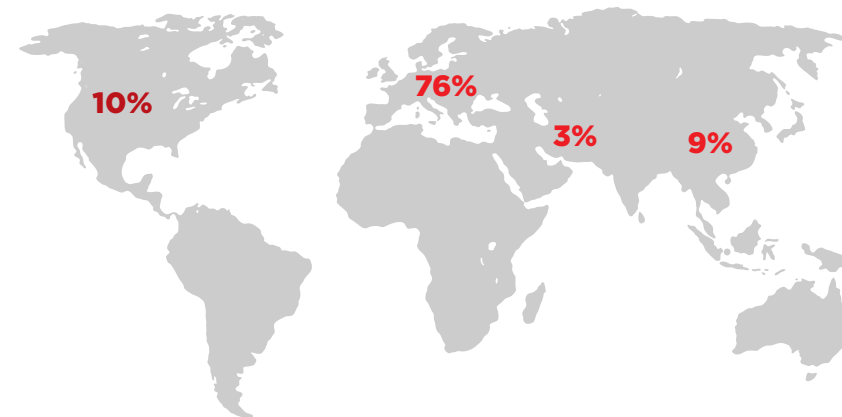

35 EXHIBITING COMPANIES

15 CONFERENCES

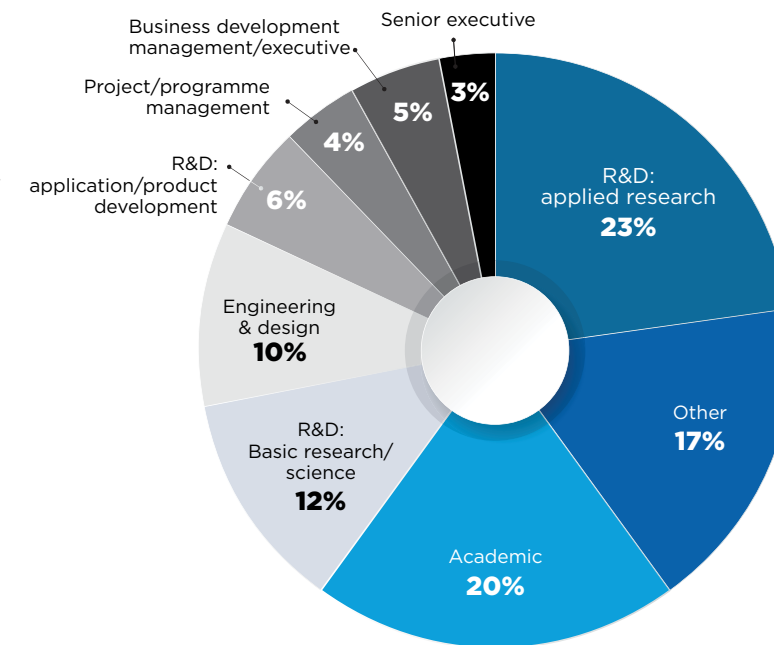

Exhibit at this highly focused event and meet over 800 attendees who need your products and services.

Connect with a qualified international audience in Edinburgh

Attendees by geographic area

Attendees by job function

Attendees by end product of company

- Cameras and Imaging Systems - **8.2%**
- Detectors, Sensors - **7.2%**
- Lasers and Systems - **6.0%**
- Laser Components and Accessories - **4.4%**
- Optical Components - Lenses - **4.3%**
- Computing, Data Processing Hardware - **4.2%**
- Optical Components - Filters, Mirrors, Misc. - **4.2%**
- Software - **4.0%**
- Test and Measurement Equipment - **3.4%**

Attendees are interested in the latest:

- » Camera and imaging systems
- » Detectors and sensors
- » Electro-optical systems
- » High powered lasers
- » Imaging systems and detectors
- » Environmental monitoring
- » Satellite imaging
- » Lidar and radar

EXHIBITING IN EDINBURGH IN SEPTEMBER IS YOUR CHANCE TO:

- Showcase your products and services
- Enjoy energetic and spontaneous discussions
- Provide hands-on exposure to products; give live demonstrations
- Meet potential new customers
- Catch up with existing clients, develop relationships
- Feature latest advances for sustainable technologies
