

Connect with customers. Share your quantum technology.

Join us for the SPIE Quantum West Expo 2026, the newest and fastest growing exhibition at SPIE Photonics West. Focused on quantum and quantum-enabling technology, this new exhibition is guaranteed to draw attention.

This expo provides the premier technical forum for reporting and learning about the latest research and development for Quantum 2.0, as well as for launching new applications and technologies.

Quantum West technical program will highlight applied quantum technologies and provide a forum that addresses the interests of researchers, engineers, tech companies, investors, and governments—all contributors that can bring about a quantum-enabled future.

Join over 1,500 exhibitors at one of the five exhibitions at SPIE Photonics West

SPIE.

SPIE is the international society for optics and photonics. We bring engineers, scientists, students, and business professionals together to advance light-based science and technology. Over the past five years, we have invested more than \$25 million in the international optics community through our advocacy and support, including scholarships, educational resources, travel grants, endowed gifts, and public-policy development.

Connect your company with leading quantum researchers and engineers

Attendee job functions:

- Laser scientist
- Optical engineer
- Opto-mechanical engineer
- Quantum software engineer
- Cryogenics engineer
- Quantum hardware systems engineer
- Quantum computing algorithm developer
- Quantum applications scientist
- Quantum AI engineer
- Quantum circuit designer
- Quantum error corrections scientist

Customers are looking for solutions in a variety of categories:

- Laser systems
- Optical components and hardware
- Cameras and detectors
- Single photon sources and detectors
- Frequency combs
- Vacuum systems
- Cryogenic components
- Atom traps
- Ion traps
- Quantum materials
- Quantum devices
- Mounting and positioning systems and hardware
- Simulation and modeling software
- Fiber optics
- Quantum communications systems
- Quantum key distribution and cryptography
- Quantum computing services
- Quantum clocks
- Quantum-based sensing, imaging and timing solutions
- Precision metrology and timing systems
- Control electronics

Sponsorships and advertising

Build your brand beyond your booth with options to educate, entertain, and drive attendees directly to your sales team. SPIE offers a variety of opportunities to put your company’s name, brand, and products front and center to build awareness. Contact the SPIE Sales team.

SPIE Quantum West is your chance to:

- Showcase your products and services to over a thousand prospective buyers
- Meet face-to-face to catch up with existing clients and develop new relationships
- Accelerate your sales process and generate leads
- Launch and showcase new products
- Find new project partners and distributors
