70+ EXHIBITING COMPANIES

Join us in San Jose, California at the largest optical lithography R&D event in America

SPIE brings together 2,000 technical attendees with conferences on optical lithography and EUV nanolithography, DTCO and computational patterning, metrology, advances in patterning materials, etch technology, and more.

Meet your target audience and generate new business

Our sales staff will work with you to cost-effectively boost your company's visibility and connect with prospective customers.

The key event that drives the future of lithography research and applications

Become a sponsor or exhibitor at the industry's most important event for lithography R&D, applications, sources, devices, tools, fabrication, and services. SPIE offers marketing opportunities to help you showcase your organization to leaders in the semiconductor industry.

It's global.

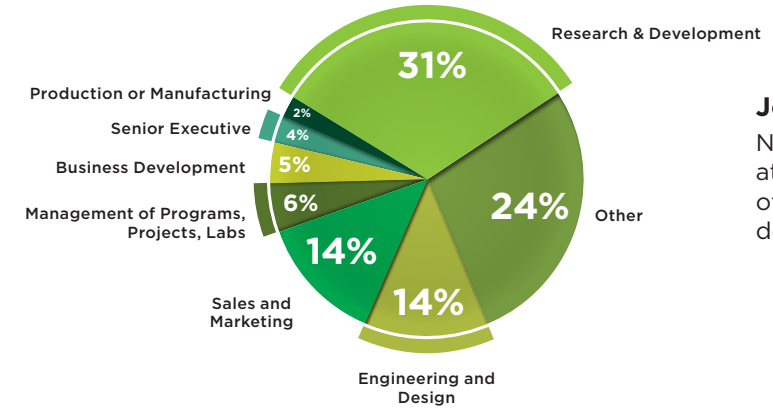

More than 2,000 people attend SPIE Advanced Lithography + Patterning each year.*

*Based on historical data

2,000 ATTENDEES **500 PAPERS** **15 COURSES** **6 CONFERENCES**

It's business.

Job functions

Nearly half of total attendance is made up of R&D and product development job functions.*

It's a buyer-rich environment for the lithography industry.

Top purchase areas:

- Lithographic equipment
- Nanotechnology products
- Materials, abrasives, chemicals
- Software
- Optical components
- Microtechnology
- Cameras and imaging systems
- Test and measurement equipment
- Microscopes
- Data computing software
- Processing hardware
- Optical coatings and thin films
- Detectors and sensors
- Lasers and laser systems
