

Grow your business at SPIE Optifab

SPIE Optifab, organized by SPIE and co-sponsored by APOMA, is the largest optical manufacturing conference and exhibition held in North America. It is attended by an international audience, and it is the premier event to connect with prospective customers and showcase the latest fabrication technologies. Don't miss this opportunity to:

- Grow your revenue
- Identify the most promising opportunities in the industry
- Solidify new contacts and meet face-to-face with your existing customers
- Demonstrate your newest products and innovations
- Expand your presence with strategically placed advertising and sponsorships

Share your innovations at the most anticipated optical manufacturing exhibition

Your exhibition booth will put you front and center of more than 1,900 attendees and alongside 170 exhibiting companies, plus grant you access to both commercial and technical presentations in optical design and fabrication. Claim your space now to expand your professional network and accelerate your research.

SPIE.

SPIE is the international society for optics and photonics. We bring engineers, scientists, students, and business professionals together to advance light-based science and technology. Over the past five years, we have invested more than \$25 million in the international optics community through our advocacy and support, including scholarships, educational resources, travel grants, endowed gifts, and public-policy development.

*Optional corner \$815 per corner (applies to booths only)
 **Increments of 100 sq. ft., 400 sq. ft. minimum
 +Includes preprinted art

Showcase your latest advancements, connect with customers, and position your new products in Rochester.

Showcase your technology at this biennial event dedicated to optical manufacturing

SPIE Optifab is your essential venue for driving new business and gaining competitive advantage in North America. This is where business gets done for the optical fabrication industry, and a qualified audience gathers to find precise machines and build relationships with leading experts in optical manufacturing.

Showcase your latest innovations in:

- Optical fabrication equipment
- Optical components, materials, and systems
- Opto-mechanical devices and components
- Optical thin film coatings
- Optical metrology and testing equipment
- Laser system components
- Clean room equipment
- Glass adhesives and materials

Amplify your exhibition presence with a commercial presentation

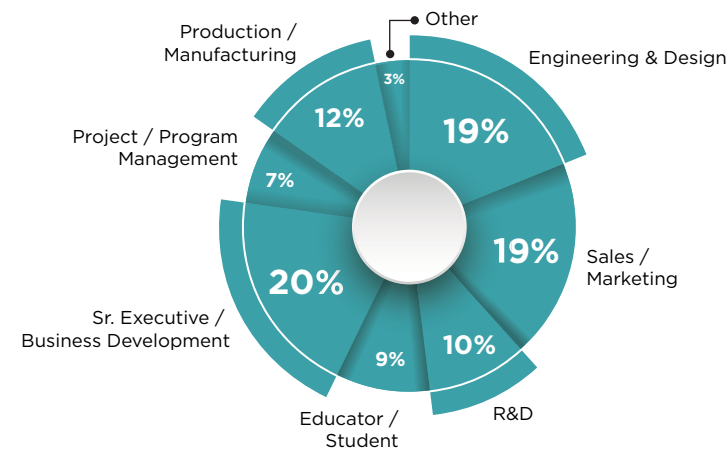

SPIE Optifab provides a unique format that incorporates both commercial and technical presentations into the conference program. This provides your company added exposure to a highly qualified audience.

Meet your target audience in Rochester

This primarily North American audience also includes hundreds of researchers and program managers from Europe and Asia. Come to develop new technical contacts and forge business partnerships with the professionals who need you most.

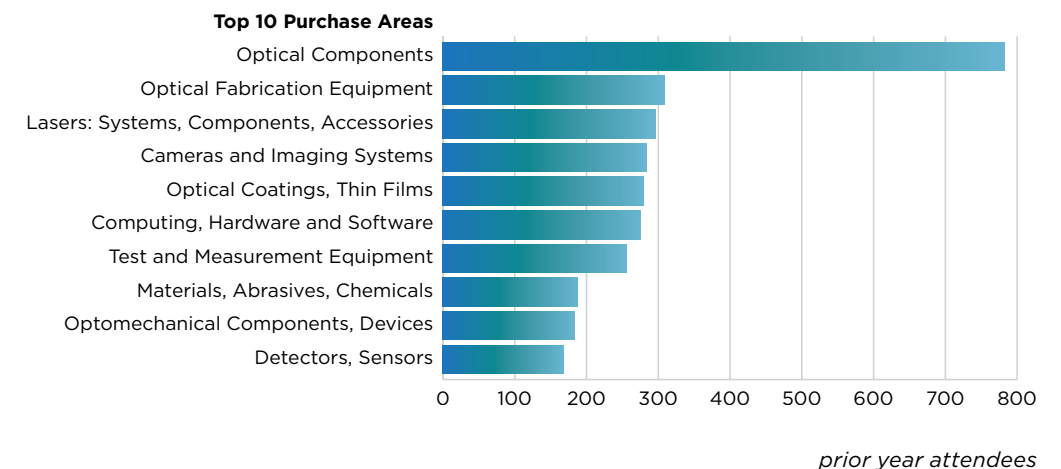

Optifab Attendee Job Functions

Secure your booth space now for best placement. This exhibition historically sells out.

The right technology buyers

The purchasing power of attendees is high. This is what they're looking for:
