## Celine Mazoukh awarded an SPIE Optics and Photonics Scholarship

BELLINGHAM, Washington, USA — **Celine Mazoukh** has been awarded a 2025 Optics and Photonics Scholarship by SPIE, the international society for optics and photonics, for potential contributions to optics, photonics, or a related field.

Mazoukh is a first-year PhD student in the Nonlinear Photonics Group at the Institut National de la Recherche Scientifique in Montreal, working under the supervision of Professor **Roberto Morandotti**. Her MSc research focused on optical frequency combs and their optimization, contributing to two journal papers, including one as first author. Her current research focuses on the development of photonic machine-learning platforms via frequency combs. “I’m honored to be a recipient of this scholarship and am keen to contribute further to photonic machine-learning,” said Mazoukh.

This month, the Society is awarding \$323,000 in scholarships to 74 outstanding SPIE Student Members, based on their potential contribution to optics and photonics, or a related discipline. Successful applicants were evaluated, selected, and approved by the SPIE Scholarship Committee, chaired by SPIE Senior Member **Brian Primeau**.

Since this program began in 1978, SPIE has distributed more than \$7.5 million dollars in individual scholarships. This ambitious effort reflects the Society's commitment to education as well as to the future generations of optical scientists and engineers around the world.

SPIE, the international society for optics and photonics, brings engineers, scientists, students, and business professionals together to advance light-based science and technology. The Society, founded in 1955, connects and engages with our global constituency through industry-leading conferences and exhibitions; publications of conference proceedings, books, and journals in the SPIE Digital Library; and career-building opportunities. Over the past five years, we have invested more than \$25 million in the international optics community through our advocacy and support, including scholarships, educational resources, travel grants, endowed gifts, and public-policy development.
