Trevor Shooshan awarded the D.J. Lovell Scholarship by SPIE

BELLINGHAM, Washington, USA — **Trevor Shooshan** has been awarded the 2025 D.J. Lovell Scholarship by SPIE, the international society for optics and photonics, for potential contributions to optics, photonics, or a related field.

Shooshan is entering his junior year at the University of Rochester, studying optical engineering. He interned with Ansys last summer, currently works for the Laser Laboratory for Energetics, and will be interning for MIT Lincoln Laboratory this summer. He is part of Professor **Duncan Moore**'s Gradient Index research group as well as Professor **Julie Bentley**'s Zoom Lens Design group. He is involved in outreach in the community, working with SPIE Student Chapter on campus. He hopes to pursue a PhD in optics as well and plans to work in the field of optical design.

This month, the Society is awarding \$323,000 in scholarships to 74 outstanding SPIE Student Members, based on their potential contribution to optics and photonics, or a related discipline. Successful applicants were evaluated, selected, and approved by the SPIE Scholarship Committee, chaired by SPIE Senior Member **Brian Primeau**.

Since this program began in 1978, SPIE has distributed more than \$7.5 million dollars in individual scholarships. This ambitious effort reflects the Society's commitment to education as well as to the future generations of optical scientists and engineers around the world.

To view other 2025 scholarship press releases as they become available, please visit the [2025 Scholarship Recipients page](#) or learn more about [SPIE scholarships](#) on spie.org.

SPIE, the international society for optics and photonics, brings engineers, scientists, students, and business professionals together to advance light-based science and technology. The Society, founded in 1955, connects and engages with our global constituency through industry-leading conferences and exhibitions; publications of conference proceedings, books, and journals in the SPIE Digital Library; and career-building opportunities. Over the past five years, we have invested more than \$25 million in the international optics community through our advocacy and support, including scholarships, educational resources, travel grants, endowed gifts, and public-policy development. www.spie.org.
